Number of fixed residential broadband lines per household

Broadband for All

Rural leading rural into the future

The world is talking about innovation, and ingenuity, and resilience. What we know is that all of those things are cooked into the DNA of rural people.

We've HAD to be resourceful, we've HAD to be resilient, we've HAD to innovate because we've needed to do those things to survive and we haven't had access to the same resources and supports found in our urban centres.
